

Lethabo Rankono Seema

BSc Mathematical Science Graduate

Email: lethaborseema@gmail.com | Mobile: +27 67 005 4304 | Gauteng, South Africa

Career Summary

A driven and detail-oriented graduate with a BSc in Mathematical Science from the University of Limpopo, I bring a dynamic blend of data science, programming, and analytical expertise. Passionate about uncovering insights through data and solving complex problems, I am ready to make an immediate impact in the fields of analytics, cybersecurity, or software development. Known for my adaptability, initiative, and collaborative mindset, I am committed to ongoing growth and innovation in fast-paced environments.

Education

University of Limpopo — Limpopo, South Africa

Bachelor of Science in Mathematical Science | Nov 2024

Key Modules: Advanced Calculus, Linear Algebra, Applied Regression, Database Systems, AI and Programming

Springs Boys' High School — Springs, South Africa

National Senior Certificate | 2018

Subjects: English, Afrikaans FAL, Mathematics, Life Orientation, Geography, Life and Physical Sciences

Highlighted Projects

Expenditure Analysis Project | University of Limpopo, 2024

- Conducted an in-depth statistical analysis of student expenditure trends using SPSS and SAS.
- Designed and implemented a survey engaging 130 final-year students.
- Delivered a compelling presentation to faculty, highlighting actionable insights into student spending.

Accommodation Platform Development | University of Limpopo, 2023

- Collaborated with peers to design a user-friendly web and mobile app connecting students to housing.
- Enabled filter-based searching and profile creation for accommodation providers.

- Enhanced usability and accessibility for over 1000 potential users within the campus community.

Leadership & Team Management

Limpopo Hockey Provincial Team Manager – U18B (2023) and U16A (2024)

- Led all travel, accommodation, and scheduling logistics for regional teams.
- Strengthened coordination between coaches, players, parents, and tournament officials.
- Built resilience and clarity in high-stakes environments through proactive planning.

Technical & Professional Skills

- Programming Languages: Python, C++, SQL, HTML, CSS, JavaScript
- Tools & Technologies: SPSS, SAS, Microsoft Excel, Git
- Core Competencies: Data Analysis, Statistical Modeling, Data Visualization, Web Development
- Soft Skills: Leadership, Teamwork, Analytical Thinking, Clear Communication
